

Transfer of DOE-owned Properties to the City of Monticello, Utah

The transfer of 383 acres from DOE ownership to the City of Monticello, Utah, was successfully completed on June 28, 2000, when the National Park Service deeded the lands to the City.

The mill site was 110 acres in size and has been remediated; there were an additional 273 DOE-owned acres adjacent to the mill site not requiring remediation, totaling 383 acres.

Operations at the Monticello, Utah, mill started in 1944 and ended in 1960.

Completed millsite remediation. Restoration will be completed by 2001.
